

### CARE MANAGEMENT AND UTILIZATION MANAGEMENT

Blue Cross Blue Shield of Michigan and Blue Care Network offer care management programs and support services to members. We also provide utilization management programs.

- **Care management** programs provide patient support by identifying patients with health risks and working with them to improve or maintain their health, and **support services** provide support to members through their health journeys.
- **Utilization management** programs focus on ensuring that patients get the right care at the right time in the right location through the prior authorization process.

These programs vary based on member coverage and may be administered by Blue Cross or BCN staff or by independent companies, as specified below.
