

CARE MANAGEMENT AND UTILIZATION MANAGEMENT

Blue Cross Blue Shield of Michigan and Blue Care Network offer care management programs and support services to members. We also provide utilization management programs.

- **Care management** programs provide patient support by identifying patients with health risks and working with them to improve or maintain their health, and **support services** provide support to members through their health journeys.
- **Utilization management** programs focus on ensuring that patients get the right care at the right time in the right location through the prior authorization process.

These programs vary based on member coverage and may be administered by Blue Cross or BCN staff or by independent companies, as specified below.

CARE MANAGEMENT AND SUPPORT SERVICES

OncoHealth

Provides a cancer support program for adult members ages 18 and older who have a cancer diagnosis or are cancer survivors. The platform for this program, Iris by OncoHealth, helps members navigate the emotional, physical and financial challenges caused by cancer diagnosis and treatment.

It also aims to lower the burden on health care providers and **complement** — not replace or interfere with — the care they provide. It's meant to provide supplemental support and education in between regularly scheduled, in-person appointments.

With permission from the member, this program is also available to his or her caregiver — regardless of the caregiver's health plan.

OncoHealth provides these services for the following groups and members:

- Blue Cross commercial
 - Fully insured groups and members with individual coverage
 - Self-funded groups* that purchase the program
- BCN commercial
 - Fully insured groups and members with individual coverage
 - Self-funded groups* that purchase the program

The program provides eligible members with access to:

- 24/7 support from oncology nurses
- Oncology-specific mental health support
- Registered dietitian nutritionists with cancer expertise
- Peer mentors
- Customized educational information
- A symptom tracker
- Advance care planning assistance
- Navigation to financial and community resources
- Interpreters
